On the 1st February 2018, the second release of the Swing Wallet made available (Windows +sourcecode). all previously known issues have been fixed including resolved connection issues. Miles Manley highlighted fact instructions in customized Swing wallet Discord channel, or fail that, help from core team. <https://github.com/Scribbles-MCAMK/Zelcash-Wallet/releases/tag/0.0.0.2> Thank you for your patience and we are continuing work on our other platform wallets, releasing in the next 2-4 days. From everyone at the Zel Foundation, thank you and lets keep going, onwards and upwards :D

4th Feb—first live core dev meeting

4th Feb 2018—block number 5,000 marked the time at which first 150 ZEL block reward generated...

10th Feb 2018—We are looking into the reported situation regarding slow blocks, at first glance, it looks like the network is randomly being hit by very large amounts of hashpower. For example, our average network solution rate over the last 3 hours is approx 1.3M Sol/s and we are seeing random jumps doubling and even triple sporadically
